Dear Mr. Jackson:

We are pleased to submit the Annual Financial Report of the University of North Texas System for the year ended August 31, 2004, in compliance with TEX. GOV'T CODE ANN §2101.011 and in accordance with the requirements established by the Comptroller of Public Accounts.

Due to the significant changes related to Governmental Accounting Standards Board Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to be in compliance with GAAP. The financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas Comprehensive Annual Financial Report; therefore, an opinion has not been expressed on the financial statements and re

### UNIVERSITY OF NORTH TEXAS SYSTEM (794) Management's Discussion and Analysis For the Year Ended August 31, 2004

#### Introduction

This section of the report represents management's discussion and analysis of the financial performance of the University of North Texas System (the System). It provides an overview of the System's financial activities for the fiscal year ended August 31, 2004 as compared to the prior fiscal year. The following discussion should be read in conjunction with the accompanying transmittal letter, financial statements and note disclosures.

The University of North Texas System (UNT System) was created by the 76th Legislature, and legislative funding was provided for the fiscal year beginning September 1, 1999. The UNT System is comprised of three components: the University of North Texas System Administration, the University of North Texas, and the University of North Texas Health Science Center (HSC) at Fort Worth. The UNT System components are agencies of the State of Texas. This report is prepared in accordance with Governmental Accounting Standards Board (GASB) pronouncements and the Texas Comptroller of Public Accounts' Reporting Requirements for State Agencies. The Combined System financial records comply with state statutes and regulations.

#### Financial Highlights

The 2003 fall semester headcount enrollment at both the University and the HSC continued to increase compared to the previous fall (increases of approximately 3% at the University and 2% at the HSC). Despite the increasing enrollment, the System was able to meet the instructional and service needs of its students.

Approximately \$12.5 million in cash contributions, non-cash capital donations, and pledged gifts were recognized as revenue in the System during the 2004 fiscal year. This figure is up from the approximately \$5 million reported in the previous fiscal year.

Two bond issues were sold during the fiscal year. The UNT System Revenue Financing System Refunding Series 2003A Bonds, par value \$6,185,000, were issued in September 2003 for the purposes of advance refunding a portion of outstanding bonds in order to reduce debt service requirements in certain years and paying certain costs of issuing the tax-exempt bonds. The UNT System Revenue Financing System

rate of 1.3%. The General Appropriations Act (GAA) includes \$2,103,750 for Tuition Revenue Bond Retirement to be paid during the biennium. Commercial paper will be used as interim funding until construction of the UNT Dallas campus, and at the appropriate time bonds will be sold. For additional information about commercial paper, see Note 4 in the Notes to the Combined Financial Statements.

During the fiscal year work continued on the multi-year installation of a new Enterprise Information System (EIS), with Student, HR, Payroll, Financials and Contributor Relations modules going live. The incremental cost of the project is approximately \$20.8 million.

As the operating revenue pie chart below shows, 33.2 percent of the System's operating revenue for this fiscal year was generated from student tuition and fees. The total tuition and fee revenue for the fiscal year amounted to \$95.7 million. This figure is net of the scholarship discounts that have been subtracted from the gross tuition and fee revenue in accordance with GASB 35 reporting requirements.

The System's operating revenue from all federal, state, and private grants and contracts, including pass through grant revenue, increased approximately 10.0 percent during this fiscal year. Faculty members of the University, in particular, have been strongly encouraged to pursue research funding in an effort to provide more funding and to more fully develop the University's image as a comprehensive graduate and research institution.

The accompanying financial statements are presented on the basis of funds each of which is considered a separate accounting entity.

#### **Proprietary Fund Types**

---

##### Enterprise Funds

Enterprise funds are used to account for any activity where a fee is charged to external users for goods or services. Activities must be reported as enterprise funds if any one of the following criteria is met.

1. The activity is financed with debt that is secured solely by a pledge of the net revenues from fees and charges of the activity.
2. Laws or regulations require that the activity’s costs of providing services, including capital costs such as depreciation or debt service, be recovered with fees and charges.
3. The pricing policies of the activity establish fees and charges designed to recover its costs, including capital costs.

##### Agency Funds

Agency funds are used to account for assets the government holds on behalf of others in a purely custodial capacity. Agency funds involve only the receipt, temporary investment, and remittance of fiduciary resources to individuals, private organizations, or other governments. Agency funds in institutions of higher education are reported in the proprietary funds.

NOTES TO THE COMBINED FINANCIAL STATEMENTS  
AUGUST 31, 2004

**Basis of Accounting**

The basis of accounting determines when revenues and expenditures or expenses are recognized in the accounts reported in the financial statements. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

Proprietary funds are accounted for on the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recognized at the time liabilities are incurred. Proprietary funds distinguish operating from non-operating items. Operating revenues and expenses result from providing services or producing and delivering goods in connection with the proprietary funds principal ongoing operations. Operating expenses for the enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets.

**Restricted Net Assets**

When both restricted and unrestricted net assets are available for use, restricted resources are used first, and then unrestricted resources are used as they are needed.

**Budgets and Budgetary Accounting**

The UNT System component institutions' budgets are prepared annually and approved by the Board of Regents. The budgets for appropriated funds are prepared biennially and represent appropriations authorized by the legislature and approved by the Governor (the General Appropriations Act).

Unencumbered appropriations are generally subject to lapse 60 days after the end of the fiscal year for which they are appropriated.

**Assets, Liabilities, and Net Assets**

**ASSETS**

---

Cash and Cash Equivalents

Short-term highly liquid investments with an original maturity of three months or less are considered cash equivalents.

Securities Lending Collateral

The UNT System had no securities lending collateral transactions during the fiscal year.

Restricted Assets

Restricted assets include monies or other resources restricted by legal or contractual requirements. These assets include proceeds of enterprise fund general obligation and revenue bonds and revenues set aside for statutory or contractual requirements. Assets held in reserve for guaranteed student loan defaults are also included.

Inventories and Prepaid Items

Inventories include both merchandise inventories on hand for sale and consumable inventories. Inventories are valued at cost, generally utilizing the first-in-, first-out method. The consumption method of accounting is used to account for inventories and prepaid items that appear in the proprietary fund types. The cost of these items is expensed when the items are consumed.

The State provides coverage for unemployment benefits from appropriations made to other state agencies for UNT System employees. The current General Appropriations Act provides that the UNT System components must reimburse General Revenue Fund – Consolidated, from UNT System appropriations, one-half of the unemployment benefits for former and current employees. The Comptroller of Public Accounts determines the proportionate amount to be reimbursed from each appropriated fund type. The UNT System Administration component has only one appropriated fund type. The UNT System components must reimburse the General Revenue Fund 100% of the cost for unemployment compensation for any employees paid from funds held in local bank accounts and local funds held in the state treasury.

Unemployment compensation is on a pay-as-you-go basis through the State of Texas, with the exception of locally funded enterprises that have fund expenses and set-aside amounts based on a percentage of payroll as detailed below. No material outstanding claims are pending at August 31, 2004.

Changes in the balances of the UNT System’s reserves for unemployment compensation for locally funded enterprises and payments made for all claims and settlements, including unemployment compensation, for fiscal years 2003 and 2004 are shown below. No material outstanding claims were pending at August 31, 2004.

AUGUST 31, 2004**

If, in any given fiscal year, the total return, excluding the net unrealized appreciation, shall be less than the target annual distribution, the actual distribution shall be limited to the net current yield, not to exceed the target distribution rate. The amount of net appreciation on University donor-restricted endowments that was available for distribution and expenditure during the fiscal year was \$159,540.23. All distributions had been made as of the end of the fiscal year; therefore, none of this appreciation amount is reflected in the Net Assets section.

University endowments that do not provide for investments in equities will not be unitized, and they will receive interest and dividends on their funds invested in fixed income securities.

## **NOTE 1 – PURPOSE AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

### Purpose

The University of North Texas Foundation, Inc. (Foundation) is a nonprofit organization with the purpose of providing financial support to the University of North Texas. This purpose is accomplished by the Foundation receiving and managing donations (cash and non-cash) from individuals and organizations.

The Foundation is a nonprofit organization as described in Section 501(c)(3) of the Internal Revenue Code and is exempt from federal and state income taxes.

### Basis of Presentation

The financial statements have been prepared on the accrual basis of accounting.

### Contributions

Contributions are generally temporarily or permanently restricted by the donor to support specific programs within the University of North Texas. Unconditional promises to give are recorded as received. Contributions receivable due in the next year are recorded at their net realizable value.

Endowment contributions and investments are permanently restricted by the donor. Investment earnings available for distribution are recorded in temporarily restricted net assets because of program restrictions. The portion of the fair value of endowment funds which is below the endowment fund's historical cost is recorded as a reduction in unrestricted net assets.

Contributions of donated noncash assets are recorded at their fair values in the period received. Contributions of donated services that create or enhance nonfinancial assets or that require specialized skills, are provided by individuals possessing those skills, and would typically need to be purchased if not provided by donation, are recorded at their fair values in the period received.

### Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

# UNIVERSITY OF NORTH TEXAS FOUNDATION, INC.

## NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2003

### **NOTE 1 – PURPOSE AND SUMMARY OF SIGNIFICANT ACCOUNTS POLICIES (Continued)**

#### Cash and Cash Equivalents

Cash equivalents consist of highly liquid investments with an initial maturity of three months or less.

#### Investments

The Foundation carries investments in marketable securities with readily determinable fair values and all investments in debt securities at their fair values in the statement of financial position. Unrealized gains and losses are included in the change in net assets in the accompanying statement of activities.

#### Real Estate

Real estate consists of property that has been purchased by or donated to the Foundation. The property is stated at cost or the estimated fair value at the time of the donation.

#### Inventory

Inventory consists of paintings donated to the Foundation and held for sale. The paintings are recorded at their fair value as of the date of the donation.

#### Agency Funds

Agency funds consist of resources held by the Foundation as an agent for resource providers and will be transferred to third-party recipients specified by the resource provider.
